

# FIELD INSTRUMENTS & CONTROLS, INC.

9629 N. Colfax  
Spokane, WA 99218  
(509) 466-8226  
(800) 815-3565

Fax: (509) 466-8227

7412 W. Glenridge View Dr.  
Boise, ID 83709  
(208)-867-2276

2601 N.E. 121st Street  
Vancouver, WA 98686  
(360) 896-9910

Fax: (360) 896-9905

## Accutech, Inc.

Wireless & battery powered temperature, pressure, analog & acoustic sensors w/ range to 1 mile. Hockey puck temp. transmitters programmable from plug-in display/pushbuttons, PC or Hart communicator.

## IFM efector, Inc.

Inductive and Capacitive Proximity Switches, Photoelectric Sensors, Pressure, Temperature and Flow Switches.

**Wedgewood-** Optics & electrochemical technology for measuring process liquids. Parameters measured include pH/ORP, conductivity, DO, turbidity, suspended solids, chlorine, color & concentration.

**Insite-** Portable and continuous measurement of dissolved oxygen and suspended solids. DO sensor uses optical technology with no consumable components. Suspended solids sensor uses infrared technology.

**HF Scientific-** Portable, lab & continuous instruments for turbidity & chlorine, EPA approved continuous & portable turbidimeters for drinking water. Self-cleaning ultrasonic option.

**Fairchild-** Field mount, DIN rail, manifold mount current to pressure transducers (I/P) & pressure to current transducers (P/I), full line of pneumatic regulators and auto-drain filters, volume boosters, pneumatic relays.

## Siemens-Moore Products

Procidia Internet Control System, 353 Loop Controller, I/P's, Smart pressure & temperature Transmitters, Valve positioners and regulators.

## Burkert

Fluid Control Solutions including Solenoid Valves, Automated Process Valves and Control Valves. Process sensors for Flow, Pressure and Temperature.

## Sierra Instruments

In-Line, Insertion and Capillary Thermal Mass Flowmeters; In-line and Insertion Multi-Variable Vortex Flowmeters.

## Pyromation

Temperature Sensors (RTD's and T/C's), RTD Transmitters, Thermowells and Hand Held Pyrometers.

## Phoenix Contact

Wireless Interface with built-in I/O & expandable I/O, Wireless Data Radios, Spread Spectrum Frequency Hopping Technology, with hazardous area approvals. 20 mile range possible.

**PR Electronics-** Signal conditioning, isolators & intrinsic safety barriers. Signal converters have universal inputs, outputs and power. Single and dual channel converters & isolator modules. Temperature transmitters.

## Maselli Measurements

Inline & Lab Refractometers for dissolved solids measurements. Sanitary and industrial fittings for inline model including self-cleaning. Accuracy to 0.03 degrees Brix.

## Siemens-Milltronics

Ultrasonic and Radar level transmitters for liquids & solids, open channel flow, capacitance level tuning fork & rotary paddle level switches. Belt scales & inline flow meters for solids.

## Siemens-Danfoss

Magnetic Flowmeters for conductive liquids, Coriolis Mass Flowmeters for flow & density measurements. Transit-time inline Ultrasonic Flowmeters for liquids.
